TRIBUNE ALMANAC FOR 1873.

Astronomical Department.

Computed and arranged expressly for this WORK, by SAMUEL H. WRIGHT, A. M., M. D., Penn Yan, Yates County, N. Y.

ECLIPSES.

PLACES.	Begins morn.	Total begins morn.
Boston	4 46	Moon sets eclipsed.
New York	4 34	
Washington	4 22	
Charleston	4 10	
Buffalo	4 15	
Detroit	3 58	
Chicago	3 40	4 45
New Orleans	3 30	4 35
St. Louis	3 29	4 34
San Francisco	1 20	2 25
Portland, Or.	1 20	2 25

There will be four eclipses this year, as follows:

I. A Total Eclipse of the Moon May 12, in the morning, which will be partial and visible from Boston west to Chicago, and west of Chicago the Eclipse will be total. The Moon sets with the Eclipse upon it, except at San Francisco.

II. A Partial Eclipse of the Sun May 26, the Sun rising partly eclipsed in Maine, New Hampshire, and part of Vermont and Eastern Massachusetts. At Portland, Maine, the Eclipse ends at 4h. 37m., about eight minutes after sunrise. In New Hampshire, Vermont, and Massachusetts there will be scarcely more than a contact of limbs.

III. A Total Eclipse of the Moon November 4, which will be visible as a *partial* Eclipse in California and Oregon. At San Francisco, and at Portland, Or., it begins at 5h. 56m. in the morning, the Moon setting with the Eclipse upon it.

IV. A Partial Eclipse of the Sun November 19; visible in the Southern Ocean.

MORNING STARS.

Venus after May 5.
Mars until January 17.
Jupiter after September 4.
Saturn from January 13 to April 22.

EVENING STARS.

Venus until May 5.

New and Valuable Tide Table for 110 Places.

To find the time of high-water at any of the places named in the following table, add the time indicated in the first column of figures to the time of "Moon South," or "Moon on Meridian," found in the calendar pages. If the result is more than 12 hours from noon, the time will be the *next* day in the morning; and if more than 12 hours from midnight, the time will be in the afternoon of the same day. The tide thus found is the *first* after the Moon's culmination. The *second* tide occurs 12 hours and 26 minutes later than the first:

To Get Correct Time.

When the shadow cast by the Sun reaches the noon-mark, set the clock at the time given in calendar pages of this Almanac, in the column of "Sun at Noon-mark," and it will be exactly right. If a meridian line is used instead of a noon-mark, the passing the lines by the Sun's center is the moment for setting the clock. Any skillful surveyor can make a noon-mark or meridian lines of small brass or copper wires. In doing so, he must allow for the variation of the magnetic needle from a *true* or astronomical north and south line.

A Table of Sixty-one Bright Stars.

To ascertain when any Star found in the following Table will be on the *upper* meridian, *add* the numbers opposite in the left-hand column of figures to the time of "*Sidereal* Noon" found in the calendar pages. For the RISING of a star, *subtract* the number opposite in the right-hand column of figures from its meridian passage. For the setting of a star, *add* the same number to its meridian passage. Those marked (....) revolve in a circle of perpetual apparition, and do not rise nor set north of the latitude of New York (40° 42′ 40″), for which latitude the semi-diurnal arcs are calculated. The civil day begins at midnight, and consequently 24 hours after midnight, or 12 hours from noon, is *morning* of the succeeding day; and more than 24 hours from noon, is *evening* of the next day. From 12h. to 24h. from midnight, or from 0h. to 12h. from noon, will be in the afternoon of the same day. This table is arranged in the order of culmination.

Surveyors and Civil Engineers may obtain the declination of the magnetic needle by observations on the Pole Star when upon the meridian, or when at the greatest elongation east or west. POLARIS and other stars pass the *lower* meridian 11h. 58m. after their upper transit. To the time of upper transit of Polaris, add 5h. 54m. and it gives the time of greatest *western* elongation. If the 5h. 54m. be subtracted from the time of upper transit, it will give the time of greatest *eastern* elongation. Observations made at the time of greatest elongation are *less* liable to error than those made at the time of transit. The mean distance of Polaris from the pole this year is 1° 22′ 4.3″. To find its azimuth for any latitude, take from 18.3778781 the logarithmic cosine of the latitude, and the remainder is the logarithmic sine of the azimuth.

NOTE.—The tides may be expected highest when the Moon is in perigee, and lowest at apogee. The duration of moonlight will be greatest when the Moon is highest, and least when it is lowest. When the full Moon falls about the time of the "highest," the entire night will be lighted by the Moon.

NOTE.—In the table above it is to be understood that the word "*near*" and the character ☌ (conjunction) are synonymous, and mean that the two bodies are *nearest* each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same *right ascension*. GR. ELON. means greatest elongation or greatest apparent angular distance from the SUN. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary to that it last had. The character ☍ indicates that the planet is opposite the Sun, or 180 deg., or a half circle east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle or 90 deg. from the Sun, east or west, it is known by □.

PLANETARY CHARACTERS.—☿ Mercury, ♀ Venus, ♂ Mars, ♃ Jupiter, ♄ Saturn, ♅ Uranus, ♆ Neptune, ☾ Moon.

The above table enables us to find the planets throughout the year.

To Ascertain the Length of the Day and Night,

at any time of the year, add 12 hours to the time of the Sun's setting, and from the sum subtract the time of rising, for the *length of the day*. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning, for the *length of the night*. These rules are equally true for *apparent* time.

Leap-Year.—Every year the number of which is divisible by 4 without a remainder is a leap year, except the last year of the century, which is a leap-year only when divisible by 400 without a remainder. Thus the year 1900 will not be a leap-year.

The Asteroids.

About 119 little planets, called Asteroids, have been discovered between the orbits of Mars and Jupiter. Some of them are so small that to call them *worlds* might seem inappropriate. But any body having an *orbit*, though not larger than a cannon-ball, is entitled to rank as a world. Many such may exist which will never be discovered because of their littleness. Very little asteroidal bodies are revolving around the earth, as the moon does. The aerolites, or falling stones, are really such asteroids whose orbits cross the earth's orbit, or else wind spirally inward to the earth as a center.

DISTRESSING COUGH CURED.—*Letter from Rev. Dr Beattie.*—Scotchtown, Orange Co., N. Y., Oct. 20, 1869.—*Thomas Allcock & Co.*, Sing Sing: Your Porous Plasters are a great blessing. My daughter, Isabella, had whooping cough some twelve months since: when the severity of the disease abated, she still for six months had a distressing cough, and became very weak and thin. Finding internal remedies of no avail, an Allcock's Porous Plaster was applied to her chest. The cough was relieved from the day it was put on, and in one month was entirely cured. I am yours, truly, D. BEATTIE.

ALLCOCK'S POROUS PLASTERS.

Dr. Valentine Mott, Dr. Johnson, of Hartford, and Dr. Myers, of Savannah, have spoken of them in the highest terms. The great Mott said: "They were all that could be hoped for in a Plaster—simple cleanly and adhesive, perfect as artificial supporters of the muscles, and for pains, because of their mild counter-irritant qualities, usually at once giving ease." Local weakness of the back, breast and side always benefited, thus curing lumbago in a few hours, sometimes in a few minutes. In sciatica, hip disease, and neuralgic affections, they have cured when other means failed.

Sold by Druggists at 25c. each.

ALLCOCK'S POROUS PLASTER,
Besides, a peculiar piny pleasant odor, halo, or atmosphere exhales from them by the warmth of the body, imperceptible to the eye, but which envelopes the body in a cloud of thin vapor through which contagion cannot penetrate. In fact, Allcock's Plasters supply an atmosphere like that of a balsam or pine woods, and no doubt attracts ozone. When contagious or infectious diseases are about, they should be worn on the chest or back as preventives.
Sold by all Druggists at 25 cents each, and by the yard, or any size to suit.

THE LAWS OF CONGRESS.

AN ABSTRACT OF THE MORE IMPORTANT PUBLIC LAWS PASSED AT THE SECOND SESSION OF THE FORTY-SECOND CONGRESS.

FORTY-SECOND CONGRESS—SECOND SESSION COMMENCED DEC. 4, 1871—CLOSED JUNE 10, 1872.

CHAP. V.—*Public Buildings in Chicago.*—Appropriates $2,000,000 for a building suitable for Custom House, Post Office, Sub-Treasury, and U. S. Court House.

CHAP. XI.—*Congress Apportionment.*—Provides for a House of Representatives of 283 Members: subsequently amended (CHAP. CCXXXIX), by increasing the number to 292, distributed as follows: To the State of Maine, 5; N. H., 3; Vermont, 3; Mass., 11; R. I., 2; Ct., 4; N. Y., 33; N. J., 7; Pa., 27; Del., 1; Md., 6; Va., 9; N. C., 8; S. C., 5; Ga., 9; Ala., 8; Mi., 6; La., 6; Ohio, 20; Ky., 10; Tenn., 10; Ind., 13; Ill., 19; Mo., 13; Ark., 4; Mich., 9; Fla., 2; Texas, 6; Iowa, 9; Wis., 8; Col. 4; Min., 3; Oregon, 1; Kansas, 3; West Va., 3; Nevada, 1; Nebraska, 1; Total, 292.

CHAP. XXI.—*Pensions.*—Appropriates $30,180,000 for payment of invalid and other pensions for 1873.

CHAP. XXXIII.—*Reducing Taxes.*—Repeals so much of schedule C. as imposes a tax upon canned meats, fish, fruits, vegetables, &c.

CHAP. LXXIX.—*Printing Debates in Congress.*—Authorizes the Congressional Printer to contract with Rives and Bailey for reporting and printing the debates in Congress for a term of two years, and appropriates $400,000 for the purpose.

CHAP. LXXXV and CCCXXXVIII.—*Homesteads for Soldiers and Sailors.*—Provides that every honorably discharged private soldier and officer who served in the army during the Rebellion for 90 days or more, including troops mustered into the Service by virtue of the third section of "an Act making appropriations for completing the defenses of Washington," &c., approved Feby. 13, 1862, and every seaman, marine and officer who served in the navy or marine corps for 90 days during the rebellion shall, on compliance with the provisions of "an Act to secure homesteads to actual settlers on the public domain," be entitled to a homestead of 160, and shall be allowed six months after locating his homestead to commence his settlement and improvement. But no homestead settler can receive a patent for his land until he shall have resided upon and improved it for at least one year. In case of the death of any person who would be entitled to a homestead under the provisions of this Act his widow or children may avail of the benefits of the Act. Where a party at the date of his entry of a tract of land, or subsequently thereto, was actually enlisted and employed in the army or navy, his services are to be construed as a residence for the same time upon the tract so entered. Any soldier, sailor or marine, officer or other person coming within the provisions of this Act may enter upon his homestead by an agent if he so elect, provided said claimant in person shall, within the time prescribed, make his actual entry, improvements, &c.

CHAP. CXIV.—*In Relation to Bounties.*—Provides that every volunteer, non-commissioned officer, private, musician and artificer who enlisted into the military service prior to July 22, 1861, under the proclamation of the President, of May 3, 1861, and was actually mustered before Aug. 6, 1861, into any regiment, company, or battery, which was accepted by the War Department, shall be entitled to $100 bounty.

CHAP. CXXXI.—*Free Tea and Coffee.*—Places tea and coffee upon the free list on and after July 1, 1862.

CHAP. CXXXIX.—*Election of Congressmen by ballot.*—Provides that representatives in Congress shall hereafter be elected by ballot, any law of any State to the contrary notwithstanding. All votes received or recorded otherwise than by ballot to be void.

CHAP. CXL.—*Legislative, Executive, and Judicial Expenses for the Year ending June 30, 1863.*—The Act appropriates as follows:

Compensation of Senators	$400,000
Other expenses of the Senate	301,475
Compensation of Members and Delegates	1,000,000
Other Expenses of the House	456,558

Total	$17,894,146

CHAP. CLII.—*To Promote Mining.*—Declares all mineral deposits upon lands, surveyed and unsurveyed, belonging to the U. S. open to exploration and purchase by citizens and those having declared their intention to become citizens under regulations prescribed by law; that mining-claims heretofore located be governed as to length along the vein by customs and laws in force at the time of their location. Claims hereafter located not to exceed 1,500 feet in length of vein and not more than 300 feet on each side of the middle of the

vein. The Act makes provision for the rights of owners of tunnels, the amount of work necessary to hold possession, for determining rival claims, &c.

CHAP. CLX.—*To Establish the Pay of Enlisted Men.*—Fixes the pay of sergeant-majors and quarter-master-sergeants of cavalry, artillery and infantry at $23 per month; chief trumpeters of cavalry, principal musicians of artillery and infantry, saddler sergeants of cavalry and first sergeants, $22; sergeants, $17; corporals, $15; blacksmiths, farriers, and saddlers of cavalry, $15; trumpeters, musicians, and privates, $13; hospital stewards, first class, $30; second, $22; third, $20: ordnance sergeants of posts, $34; sergeant-majors of engineers, $36; sergeants of engineers and ordnance, $34; corporals of do., $20; musicians of engineers, $13; privates, first class, of engineers and ordnance, $17; second class, $13. To these rates there is to be added $1 per month for the third year of enlistment, $1 more for the fourth, and one more for the fifth. Enlisted men now in the service to receive the same rates of pay according to the length of their service.

CHAP. CLXI.—*Deposits for Soldiers.*—Provides that soldiers may deposit their savings with paymasters and draw 4 per cent. interest, the Government being responsible for the deposits.

CHAP. CCLIX.—*Centennial International Exhibition.*—The Act provides for celebrating in a becoming manner the one hundredth anniversary of American Independence, by holding an International Exhibition of Arts, Manufactures and Products of the soil and mines, at Philadelphia, in 1876. A corporation, having the usual powers of such bodies, is created by the name of the Centennial Board of Finance, composed of prominent citizens from each State and Territory of the U. S., equal in numbers to about twice the number of Senators, Members, and Delegates in Congress. The corporation is authorized to secure subscriptions of capital stock to an amount not exceeding $10,000,000, in shares of $10 each, and to issue stock therefor. Corporations existing under authority of the U. S. may subscribe to this stock. The proceeds of this stock to be used for the erection of suitable buildings with appropriate fixtures required in carrying out the objects of the Act of Congress of March 3, 1871. [See TRIB. ALMANAC for 1872, p. 18.] Opportunity is to be given to the citizens of each State and Territory for a period of 100 days to subscribe for stock to an amount not exceeding its quota, after which period stock not subscribed may be taken by any persons desiring it. After the expiration of the 100 days the Centennial Commission, created by Act of March 3, 1871, shall issue a call for a meeting of the corporators and subscribers of stock, to be held in Philadelphia, for the election of a board of directors, to consist of 25 stockholders. These directors are to be chosen from a list of 100 stockholders, to be selected by the Centennial Commission. When the board shall have been duly organized, the Centennial Commission are to deliver to it all subscription books and papers relating thereto.

The grounds for the exhibition shall be

prepared and the buildings erected by the said Corporation in accordance with plans which shall have been previously adopted by the United States Centennial Commission, and the rules and regulations of said Corporation governing rates for "entrance" and "admission" fees, or otherwise affecting the rights, privileges, or interests of the exhibitors, or of the public, shall be fixed and established by the United States Centennial Commission; and no grants conferring rights or privileges of any description connected with the said grounds or buildings, or relating to said exhibition or celebration, shall be made without the consent of the United States Centennial Commission, and said commission shall have power to control, change, or revoke all such grants, and shall appoint all judges and examiners, and award all premiums. The Centennial Board of Finance shall have authority to issue bonds, not in excess of its capital stock, and secure the payment of the same, principal and interest, by mortgage upon its property and prospective income.

The certificates of stock are to be furnished by the Secretary of the Treasury, and the counterfeiting of the scrip is made a penal offence punishable as in the case of counterfeiting U. S. Treasury notes. Members of the Centennial Board of Finance are not personally liable for the debts of the Corporation. It is made the duty of the Centennial Commission to make report from time to time to the President of the United States of the progress of the work; and after the exhibition shall have been finally closed to convert the property of the Corporation into cash, and after payment of its liabilities to divide its remaining assets among its stockholders *pro rata*, and in a final report to the President of the U. S. to present a full exhibit of the U. S. Centennial Celebration and Exhibition of 1876.

That from and after the passage of this Act all lumber, timber, hemp, Manila, and iron and steel rods, bars, spikes, nails, and bolts, and copper and composition metal, which may be necessary for the construction and equipment of vessels built in the United States for the purpose of being employed in the foreign trade, including the trade between the Atlantic and Pacific ports of the United States, and finished after the passage of this Act, may be imported in bond, under such regulations as the Secretary of the Treasury may prescribe; and upon proof that such materials have been used for the purpose aforesaid, no duties shall be paid thereon. The remaining sections of this act, 12 to 47 inclusive, are amendatory of the internal revenue laws:

Distilled Spirits.—The amendments relating to distilled spirits took effect on August 1st, and are substantially as follows:

The following taxes theretofore existing were repealed: The special tax of $100 imposed upon distillers, and the tax of $4 per barrel on each barrel of 40 proof gallons produced in excess of 100 barrels in any one year; also the tax of 1 per cent. on the sales of dealers in liquors, and the tax of 50 cents on each barrel rectified by rectifiers, in excess of 200 barrels in any one year. In lieu of the taxes thus repealed and of the tax of 50 cents per proof gallon theretofore imposed upon spirits distilled, the following are imposed or continued: On spirits produced, 70 cents per proof gallon. Rectifiers of spirits, $200 per annum. Wholesale dealers in liquors, selling in quantities of 5 gallons and upwards, $100 per annum. Retail dealers in liquors, selling in quantities less than 5 gallons, $25 per annum. When the same party sells both at wholesale and retail, both taxes are imposed. A tax of 10 cents each pint and 20 cents each quart bottle is imposed upon all wines made in imitation of Champagne, when not made from grapes, currants, rhubarb, or berries grown in the United States. The tax imposed upon brewers remains as before, viz., $1 per barrel of 31 gallons on all ale, beer, porter, and lager beer produced: In addition to which brewers are subject to an annual special tax of $100, if producing 500 barrels and upwards per year, or $50 if not exceeding 500 barrels a year.

Dealers in fermented liquors (ale, beer, porter, and lager beer) exclusively, were formerly rated and taxed as other dealers in liquors were taxed. Under this Act, however, they are rated separately, and are taxed, if selling in quantities upwards of 5 gallons, as wholesale dealers in malt liquors, $50 per annum; if only in quantities of 5 gallons or less, as retail dealers in malt liquors, at $20 per annum.

Tobacco, Snuff, and Cigars.—The amendments relating to these articles took effect on July 1st. The rate of tax on snuff remains as before, 32 cents per lb. Tobacco, formerly taxable at 16 cents and 32 cents—the lowest rate being for that made from leaf with all the stems and buts in, and the higher for that made from the leaf stripped from its stems and buts—is now taxable on all grades at the uniform rate of 20 cents per lb.: In addition to which the manufacturer is required to pay an annual special tax of $10 and to give bonds that he will faithfully comply with the law.

Cigars remain taxable as before at $5 per M., and in addition thereto the manufacturer is required to pay an annual special tax of $10, and to give bonds, as in the case of manufacturers of tobacco and snuff. The tax of $2 per each $1,000 of sales in excess of $5,000 per annum formerly imposed upon cigar manufacturers is repealed. So also is repealed the like tax on sales formerly imposed upon dealers in leaf tobacco and dealers in manufactured tobacco and cigars. The following annual taxes are continued: On dealers in leaf tobacco, $25 per annum. On dealers in manufactured tobacco, $5 per annum.

Banks and Bankers.—The taxes imposed by section 110 of the Act of June 30, 1864, are continued, with the amendment that hereafter they shall be paid semi-annually, in lieu of monthly, as heretofore, and that the words "capital employed" in said section shall not include money borrowed or received from day to day, in the usual course of business, from any person not a partner of or interested in the said bank, association, or firm. These taxes are as follows: On capital, 1-24 of 1 per ct. per month. On deposits, 1-24 of 1 per ct. per month. On circulation, if in excess of 5 per ct. of capital, 1-12 of 1 per ct. per month, except that on the issue of any State bank circulation a tax of ten per ct. is imposed. Savings Banks are exempted from the tax on deposits except on the average amount that may be credited to any one depositor in sums exceeding $2,000, and of such deposits are taxable only on the excess of their investments in U. S. bonds.

The tax on gas was repealed to take effect August 1.

The stamp taxes in schedule B. were repealed to take effect Oct. 1, excepting only the the tax of 2 cents on bank checks

The following stamp taxes imposed by schedule C are continued: On proprietary or patent medicines; perfumery and cosmetics; friction matches; wax tapers; cigar lights; playing cards.

The income tax ceased by limitation with the year 1871.

The amendment to sec. 49 of the Act of July 20, 1868, reduces the number of supervisors of Internal Revenue from 25 to 10.

Section 43 provides for a reduction of the number of Internal Revenue Districts to 80, the present number is (prior to January 1, 1873), 243.

SEC. 44. That all suits and proceedings for the recovery of any internal tax alleged to

have been erroneously assessed or collected, or any penalty claimed to have been collected without authority, or for any sum which it is alleged was excessive, or in any manner wrongfully collected, shall be brought within two years next after the cause of action accrued and not after; and all claims for the refunding of any internal tax or penalty shall be presented to the Commissioner of Internal Revenue within two years next after the cause of action accrued and not after; *Provided*, That actions for claims that have accrued prior to the passage of this Act, shall be commenced in the courts or presented to the Commissioner of Internal Revenue within one year from the date of said passage; *And provided further*, That where a claim shall be pending before said commissioner the claimant may bring his action within one year after such decision and not after; *And provided further*, That no right of action barred by any statute now in force shall be revived by anything herein contained.

Section 46 continues in force all the provisions of the Acts and parts of Acts repealed for issuing and collecting liabilities that may have accrued under them.

CHAP. CCCXXII.—*To Authorize the Appointment of Shipping Commissioners.*—This Act provides for the appointment by the Circuit Courts of the U. S. of Shipping Commissioners in certain seaports to superintend the shipping and discharge of seamen engaged in American Merchant Ships, and for the further protection of seamen. The general business of a shipping-commissioner under this Act is to afford facilities for engaging seamen by keeping a register of their names and characters, to superintend their engagement and discharge; to provide means for securing the presence on board at the proper times of men engaged; to facilitate the making of apprenticeships to the sea-service and to perform other duties prescribed by law. In ports where there are no shipping commissioners the duties are devolved upon collectors or deputy-collectors of the ports.

CHAP. CCCXXXV.—*To Revise the Postal Laws.*—This Act revises, consolidates, and amends previously existing statutes relating to the Post Office Department from March 3, 1791, to April 27, 1872, contains 327 sections, and repeals 119 Acts and parts of Acts and resolutions or parts of resolutions. Lacking space for a proper abstract of this important Act we must refer readers to the Law itself.

CHAP. CCCXXXVII.—*Redemption and Sale of U. S. Lands held for Taxes.*—Provides that all lands now held by the United States for non-payment of direct taxes may be redeemed and restored to such of the former owners as shall make application therefor to the Secretary of the treasury, through the Commissioner of Internal Revenue, within two years from the passage of this Act, upon the payment of the tax and charges and 10 per cent. interest from the time the tax became due. Unredeemed lands at the expiration of the two years are to be sold at public auction.

CHAP. CCCXLII.—*Increasing Pensions.*—Provides that every person previously entitled to a pension of less than $18 per month, who shall, while in the service, have lost both eyes or both hands or both feet, or shall otherwise have been totally disabled, shall receive $31 25 per month; those losing one hand and one foot $24 per month, and those losing one hand or one foot $18 per month.

CHAP. CCXLVI.—*Security of Bank Reserves.*—Authorizes the secretary to receive on deposits U. S. notes from National Banks without interest and to issue certificates therefor in denominations of not less than $5,000 payable on demand, which certificates may be held by the banks as part of their legal reserve, and may be accepted in the settlement of clearing house balances.

CHAP. CCCLIII.—*Artificial Limbs for Soldiers.*—Amends the Act of June 30, 1870, for supplying artificial limbs, or commutation therefor to officers, soldiers, and seamen, so that it shall apply to all officers, non-commissioned officers, enlisted and hired men of the land and naval forces who in the line of their duty as such shall have lost limbs or sustained bodily injuries depriving them of the use of their limbs.

CHAP. CCCLXVI.—*To Reimburse Kansas.*—Appropriates $337,054 to reimburse the State of Kansas for disbursements in aid of suppressing the rebellion.

CHAP. CCCLXIX.—*To Reimburse Kentucky.*—Appropriates $1,000,000 for war disbursements made by the State of Kentucky.

CHAP. CDXV.—*Sundry Civil Expenses.*—Appropriates for sundry Civil Expenses of the Government for the year 1872–3 as follows:

Under Treasury Department	$1,741,117
Public Works under Treasury Department	3,050,000
Judiciary	3,700,000
Light Houses, Beacons, &c.	2,425,249
Interior Department	2,749,015
Under War Department	3,078,598
Under Navy Department	1,184,200
Miscellaneous and other Appropriations	2,012,535
Total	$19,940,714

Federal Supervision of Elections.—This Act amends the Act of Feby. 28, 1871, relative to the right of citizens to vote, so that whenever in any county, parish, or congressional district, ten citizens prior to any registration of voters for a congressional election shall prefer a written request to the Judge of the U. S. Circuit Court, he shall appoint two supervisors of election for each of such election districts as proper application may be made for: *Provided*, That no compensation shall be allowed to the supervisors herein authorized to be appointed, except those appointed in cities or

towns of 20,000 or more inhabitants. And no person shall be appointed under this Act as supervisor of election who is not at the time of his appointment a qualified voter of the county, parish, election district, or voting precinct for which he is appointed. And no person shall be appointed deputy-marshal under the Act of which this is amendatory, who is not a qualified voter at the time of his appointment, in the county, parish, district, or precinct in which his duties are to be performed. And section 13 of the Act of which this is an amendment shall be construed to authorize and require the Circuit Courts of the United States in said section mentioned to name and appoint, as soon as may be after the passage of this Act, the commissioners provided for in said section, in all cases in which such appointments have not already been made in conformity therewith. And the third section of the Act to which this is an amendment shall be taken and construed to authorize each of the judges of the Circuit Courts of the United States to designate one or more of the judges of the district courts within his circuit to discharge the duties arising under this Act or the Act to which this is an amendment. And the words "any person" in section 4 of the Act of May 31st, 1870, shall be held to include any officer or other person having powers or duties of an official character under this Act or the Act to which this is an amendment: *Provided*, That nothing in this section shall be so construed as to authorize the appointment of any marshals or deputy-marshals in addition to those heretofore authorized by law: *And provided further*, That the supervisors herein provided for shall have no power or authority to make arrests or to perform other duties than to be in the immediate presence of the officers holding the election, and to witness all their proceedings, including the counting of the votes and the making of a return thereof.

CHAP. CDXVI.—*Repair and Completion of Public Works.*—Appropriates for the repair, preservation, and completion of certain public works on rivers and harbors, $5,286,000, which amount is about equally divided between the works on or near the sea coast and those in the interior. The Act also provides for various surveys with a view to further improvements of rivers and harbors.

CHAP. CDXVII.—*Fortifications and Defensive Works.*—Appropriates for the construction, preservation, and repairs of fortifications and other works of defense, $2,037,000.

APPROPRIATIONS RECAPITULATED.

With the exception of a few indefinite sums the following shows the appropriations made by Congress at the Session of 1871-2:

For Pensions	$30,480,000
For the Post Office Service	29,019,340
For the support of the Army	28,683,615
For sundry Civil Expenses	19,940,714
For the Naval Service	18,188,083
Legislative, Executive, and Judicial	17,894,146
For various Indian Tribes	6,398,477
For Deficiencies in former Appropriations	6,065,367
For River and Harbor Improvements	5,286,000
For Fortifications, &c.	2,037,000
For Custom House, Court House, &c., at Chicago	2,000,000
For Consular and Diplomatic Expenses	1,219,659
Other Expenditures	2,193,105
Total	$169,105,506

Bridging Rivers.—The construction of bridges are authorized by various Acts of Congress as follows: Across the Missouri River at St. Joseph, Mo; across the Mississippi, near Clinton, Iowa; across the Mississippi between the counties of Carroll and Whiteside, Ill., and the counties of Jackson and Clinton in Iowa; across the Mississippi at La Crosse, Wis.; across the Missouri River at Boonville, Mo.; across Lake Saint Croix at Hudson, Wis.; across the Mississippi River at Quincy, Ill; also at Warsaw, Ill.; over the tide water of Dunstan River in the town of Scarboro', Me.; across the Mississippi at Port Madison, Iowa; across the Arkansas at Little Rock, Ark.; across the Missouri at Nebraska City; also at Brownville, Neb.; across the Mississippi at Red Wing, Min.

Railroad Grants.—Right of Way.—Various Acts of Congress grant the right of way through the public lands as follows: For a railroad from Great Salt Lake to Portland, Oregon; Texas and Pacific Railway succeeds to the franchises and rights of the Texas Pacific Railway; Chicago and North Western Railway Co. are authorized to change their projected line of railway in Michigan, Dakota Southern Railway from Sioux City, Iowa, to the west line of Ben Homme Co., Dakota; Dakota Grand Trunk Railway Co. line of road not yet fixed; Utah, Idaho, and Montana Railroad Co., by way of Malade River and Snake River Valley through Utah, Idaho, and Montana Territories to a connection with the Northern Pacific Railroad, or with the Helena and Utah Northern Railroad; Great Southern Railway Co. from St. Mary's River to Key West, Fla.; Jacksonville and St. Augustine Railroad Co., between Jacksonville and St. Augustine, Fla.; Denver and Rio Grande Railway Co., from Denver to the northern boundary of Mexico; New Mexico and Gulph Railway, from the north-western boundary of New Mexico to the junction of the San Juan with the Rio Mancos, and down the Pecos River Valley to the passage of the said Pecos River into the State of Texas at the 32nd parallel; Eastern Nevada Railroad Co., from Elk to Hamilton City, Nevada.

Custom Houses, Court Houses, &c.—Provision is made by various Acts for the purchase of sites or the structure of buildings for Post Offices, Court Houses, Custom Houses, &c., as follows: At Chicago, Ill.; Albany, N. Y.; Trenton, N. J.; Indianapolis, Ind.; Hartford, Ct.; St. Louis, Mo.; Rockland, Me.; Fall River, Mass.; Utica, N. Y.; Little Rock, Ark.; Harrisburgh and Philadelphia, Pa.; Port Huron, Mich.; Raleigh, N. C.; Baltimore, Md.; Charleston and Columbia, S. C.; Madison, Wis.; Ogdensburgh, N. Y.; Omaha, Neb.; Portland, Me.; Astoria, Oregon; Knoxville, Tenn.; Mechlas, Me.; New Orleans, La.; Newport, R. I.; and St. Paul, Min.

PROGRESS AND IMPORTANCE OF RAILWAYS.

The subject of railway construction in this country is one of great interest and importance. Commencing no longer ago than 1830 with 23 miles, the number of miles constructed up to January, 1872, was 60,852. During 1869, the mileage constructed was 4,999; in 1870, 6,145; and in 1871, 7,453; making in the three years a total of 18,597 miles. The largest mileage in any previous year was in 1856, when it reached 3,643. During the four years of our civil war but 3,273 miles were built. The State of Massachusetts has one mile of railway to 4.86 square miles of territory. A similar ratio would give to the States of New York and Pennsylvania 10,000 miles of line respectively, and to Illinois 11,000 miles, or more than twice its present mileage. The cost of railroads in this country will average $50,000 per mile—the total for the 60,852 miles being, in round numbers, $3,000,000,000. The cost of mileage constructed in 1871, at $30,000 per mile, was about $225,000,000, while at least $50,000,000 were expended in new works and equipments on old roads, making a total expenditure for the year of $275,000,000. The rapidity of the increase of business of the railroads of the United States, and the quantity and value of their gross tunnage traffic is still more remarkable than the rapid progress of these works. In 1851 the total earnings from passengers were, for 8,838 miles, $10,274,254, and from freights $20,192,100—an aggregate of $39,166,358. In 1861, the total earnings were $130,000,000; and in 1871, $451,999,000. The tunnage of all the railroads in 1861 is estimated at $19,000,000 net tons for 31,256 miles; while, in 1871, the net tunnage was 100,000,000 tons on 60,852 miles. The net tunnage reduced to pounds of all the railroads of the country, in 1851, equaled 4[illegible] lbs. to the head of population; in 1861 [illegible] lbs.; and in 1871, 5,000 lbs. per head. The value of this tunnage per head, in 1851, equaled $[illegible] 34; in 1861, $116 92 and in 1871, $[illegible]75 per head. The increase of mileage of railways constructed from 1851 to 1861 was at the rate of about [illegible] per cent. per annum. From 1861 to 1871 the rate of annual increase was about 10 per cent. The increase of tunnage from '51 to '61 was 50 per cent. per annum; from '61 to '71, at the rate of 23 per cent. per annum. The increase of population from '51 to '61 was at the rate of 3.5 per cent. per annum. From '61 to '71, at the rate 2.3—10 per cent per annum.

The cost of transporting Indian corn and wheat over ordinary highways is about 20 cents per tun per mile. At such rate the former will bear transportation only 125 miles to market, while its value is equal to 75 cents per bushel; the latter only 250 miles, while its value is $1 50 per bushel. With such highways only, our most valuable cereals will have no commercial value outside of circles having radii of 125 miles and 250 miles respectively. Upon a railroad the transportation equals 1 [illegible] cents per tun per mile, thus increasing the circle within which corn and wheat, at the prices named, will have a marketable value to radii of 1,600 and 3,200 miles respectively. The area of a circle having a radius of 125 miles is 49,087 square miles, while that of a circle drawn upon a radius of 1,600 miles is about 10 times greater, or 8,042,406 square miles. Such a difference, enormous as it is, only measures the value of the agencies at present employed in transportation, and the results achieved compared with the old.

The following table shows the mileage of railroads in the several States at the various periods noted, from January 1, 1842, to January 1, 1872:

Horace Greeley

BIOGRAPHY
OF
HORACE GREELEY.

HORACE GREELEY, the founder of the NEW YORK TRIBUNE, was born at Amherst, Hillsborough Co., New Hampshire, on the 3d of February, 1811. He was the son of Zaccheus and Mary (Woodburn) Greeley, and his father was a plain, hardworking farmer, struggling to pay for land which he had bought at a high price, and Mr. Greeley's earliest years were passed in such farm labor as a mere boy was equal to—in riding horse to plow, in picking stones, and in watching the charcoal pits. He himself states in his "Recollections" that he was "a feeble, sickly child, often under medical treatment, and unable to watch, through a closed window, the falling of rain, without incurring an instant and violent attack of illness." His mother had lost her two former children just before his own birth, which led her to regard him with more than common tenderness and anxiety. From the first he manifested signs of extraordinary intelligence. These his mother, who was a woman of uncommon intelligence and information, marked with affectionate interest. She was a great reader, and she naturally imparted to her child the same love of books which she herself entertained. Mr. Greeley says that the stories which she told him awakened in him "a thirst for knowledge and a lively interest in reading and writing." He could read before he could talk—that is before he could pronounce the longer words. When he was but two years old the Bible was his favorite book. The newspaper, which was given to him as a plaything, he examined with curiosity; inquiring first about the pictures, then the capital letters, then the smaller ones. At three years of age, he read correctly any book prepared for children, and at four any book whatever. He himself draws a pretty picture of his learning to read at his mother's knee. "I can," he says, "faintly recollect her sitting at her little wheel with her book in her lap whence I was taking my daily lessons; and thus I soon acquired the facility of reading from a book sidewise or upside down as readily as in the usual fashion—a knack which I did not suppose at first peculiar, but which, being at length observed, became a subject of neighborhood wonder and fabulous exaggeration." It has been stated that so soon as he could form any resolution, he determined to be a printer. In his third winter he attended the district school of Londonderry, where his maternal grandfather resided. He was early distinguished for his recitations and for the skill which he displayed in the spelling exercises. He was a gentle and timorous child, but it was observed that ghost stories never frightened him.

In his seventh year even the limited success which had attended his father's farming ceased, and ruin could be no longer postponed by unflinching hard work. When the child was ten the ruin was consummated, and his father was an exile and fugitive from his native State. He began the hard business of life again in the town of Westhaven, Rutland Co., Vt., where he was employed by a country gentleman of large estate. In 1826, young Greeley entered the office of *The Northern Spectator*, at East Poultney, Vt., as an apprentice to the art of printing. He was now at the college of which he was destined to be one of the most distinguished graduates. It need not be said that he went on acquiring, for it was nature with him to acquire. He had a plenty of newspapers to pore over, and a tolerable store of books. He joined the village Lyceum, which was also a Debating Society, of which he was "the real giant." His parents were away upon a new farm in Pennsylvania, but twice he visited them, walking a great part of the distance of 600 miles, and accomplishing the rest on a slow canal boat. At this early period he was already a teetotaler, and though the apprentice boarded at a tavern where the drinking was constant, he continued a rigorous abstinent. His fund of information was such that he came to be regarded as a sort of walking encyclopedia, and to him the disputes of the villagers were referred. As a printer he was reckoned the best workman in the office. But the newspaper made no money, and when Horace was in his 20th year its publication was discontinued. He immediately looked out for work elsewhere, after he had written his parents in Pennsylvania, and he obtained employment as a journeyman in Jamestown and Lodi in New York, and Erie, Pa.

It was in August, 1831, that he came to the city of New York, poor in everything except good principles and indomitable energy. He found employment first as a compositor, after much difficulty. Subsequently in copartnership with a Mr. Story he started the *Morning Post*, the first penny daily ever printed in the world, and which soon glided into bankruptcy. The printing office continued, obtaining some job work, and the concern was becoming comparatively prosperous when Story was drowned. Mr. Winchester came in, and *The New Yorker* was started. This was a

literary newspaper which, though its publication was not long continued, won so excellent a reputation that any particular account of it is here unnecessary. In Mr. Greeley's autobiography he gives a touching account of the difficulties which he encountered in this enterprise. The newspaper did a fairly good business, but it was not profitable to the proprietors, and the publication was stopped in 1841. All this time Mr. Greeley was eking out his slender income by other labors. He supplied leading articles to *The Daily Whig*, and had previously, in 1838, edited *The Jeffersonian*, a political weekly campaign paper, published in Albany and New York. Everybody will remember *The Log Cabin*, the great Whig campaign newspaper, which Mr. Greeley edited in the stormy contests of 1840. The weekly issues of *The Log Cabin* ran up to 80,000, and with ample facilities for printing and mailing might have been increased to 100,000. Mr. Greeley afterwards said that, with the machinery of distribution now existing, the circulation might have been swelled to a quarter of a million.

On the 10th day of April, 1841, the first number of the NEW YORK TRIBUNE was issued. It was a small sheet, retailed for a cent, Whig in its politics, but, to use Mr. Greeley's words, "a journal removed alike from servile partisanship on the one hand and from gagged and mincing neutrality on the other." The editor went gallantly to his work. He was thirty years old, in full health and vigor and worth about $2,000, half of it in printing material. Mr. Greeley was his own editor. Mr. Henry J. Raymond, afterwards so celebrated in journalism, but then a lad fresh from college, was his first assistant, a post which he continued to hold for nearly eight years. Mr. George M. Snow took charge of the Wall st., or financial department, and held it for more than twenty-one years. THE TRIBUNE was started with five hundred names of subscribers, and of the first number five thousand were either sold or given away. The current expenses of the first week were $520; the receipts were $92; but soon the income pretty nearly balanced the outgo. About six months after the commencement of THE TRIBUNE, and when it had reached a self-sustaining basis, Mr. Thomas McElrath, who had some capital, took charge of the business, leaving Mr. Greeley free to attend to the editorial department, and the famous firm of Greeley & McElrath was established. In Mr. Greeley's autobiography he pays a warm tribute to the business abilities of his partner. "He was," says Mr. Greeley, "so safe and judicious that the business never gave me any trouble, and scarcely required of me a thought, during that long era of all but unclouded prosperity."

Of the subsequent career of THE TRIBUNE newspaper, it is hardly necessary that we should speak to the readers of THE TRIBUNE ALMANAC. Not more in what he wrote for it, than in what others wrote for it, it bears the impress of his vigorous intellect and unswerving integrity; of his unceasing observation of public affairs, and of his indomitable industry. It was a Whig newspaper, but it was never blindly and indiscriminately the newspaper of any party. It was always the advocate of a liberal protection to American industry, but its editor constantly admonished the American workman that by assiduity and intelligence he must protect himself. It boldly discussed social questions; it followed Fourier in his ideas of associated labor, without indorsing the errors of his social doctrine; it exposed the corruptions of New York politics, and when the leaders of the party threatened its destruction, it simply defied them, and went on with its valiant work; it fought for independence of criticism, and for the right to publish the news, in the libel suit which Mr. Cooper brought against it; it introduced a better style of literary work than was common in newspapers at that time, and employed the best writers who were to be obtained. It was not too busy with home affairs to forget the wrongs of Ireland; and it always rebuked without mercy the spirit of caste which would reduce persons of African descent to social degradation. Always, whatever it discussed, THE TRIBUNE, when Mr. Greeley had hardly anybody to help him in its management and conduct, was wide-awake, vigorous and entertaining. It never forgot those who were struggling for liberty in other lands, whether they were Irish, English, or French, Hungarians, or Poles. It was the newspaper of universal humanity.

In 1848, Mr. Greeley was elected a Member of the House of Representatives, and he served in that body from December 1, of that year, to March 4, 1849. His career as a national lawmaker was a short one, but he made himself felt. He did not at all mince matters in writing to THE TRIBUNE his first impressions of the House. In the very beginning, he brought in a bill to discourage speculation in public lands, and establish homesteads upon the same. The abuses of mileage he kept no terms with. Members did not relish the exposure of their dishonesty, but all their talking did not in the least disturb Mr. Greeley's equanimity. He opposed appropriations for furnishing members

with libraries at the public expense. No member was ever more faithful to his duties, and no one ever received smaller reward.

In 1851, Mr. Greeley visited Europe, and in London acted as one of the jurors of the Great Exhibition. He also appeared before the Parliamentary Committee having under consideration the newspaper taxes, and gave important and useful information respecting the newspaper press of America. His letters written during his absence to THE TRIBUNE are among the most interesting productions of his pen. In 1855, Mr. Greeley again visited Europe for the purpose mainly of attending the French Exhibition. In 1856, he spent much of the winter in Washington, commenting for THE TRIBUNE upon the proceedings of Congress, and it was at this time that he was brutally assaulted by Mr. Rust, a Member of Congress from Arkansas. In 1856, THE TRIBUNE was indicted in Virginia—at least a man was indicted for getting up a club to promote its circulation, and Mr. Greeley was indicted with him. It was of little use that the tone in which THE TRIBUNE discussed slavery was moderate; its crime was that it discussed the subject at all. The absurdity was in supposing that such a topic could be kept out of the newspapers.

In 1859, Mr. Greeley journeyed across the plains to California. In Utah, he had his well-known interview with Brigham Young, by which he was more decidedly not convinced of the beauties of polygamy. At Sacramento and San Francisco he had a cordial public reception.

The National Convention of the Republican party met in Chicago in May, 1860, for the purpose of nominating a candidate for the Presidency. Mr. Greeley attended the convention as a delegate for Oregon, by request of the Republicans of that State. The crisis was an important one, and the opinions of members in regard to the Presidential nomination were various. The choice of Mr. Greeley was Edward Bates, of St. Louis. "I believed," says Mr. Greeley, in his autobiography, "that he could poll votes in every slave State, and if elected, rally all that was left of the Whig party, therein to resist secession and rebellion. If not the only Republican whose election would not suffice as a pretext for civil war, he seemed to me that one most likely to repress the threatened insurrection, or, at the most, to crush it." The convention having nominated Mr. Lincoln, with Mr. Hamlin for Vice-President, Mr. Greeley cheerfully acquiesced. The election of Mr. Lincoln, followed by a secession of several of the slave States, brought on the rebellion. Mr. Greeley has left on record the course which at that dangerous and difficult moment he thought it the most prudent and advisable to pursue. He took the ground that if it could be shown, upon a fair vote, that a majority of the citizens of the seceding States really desired such secession, then the remaining States should acquiesce in the rupture. "We disclaim," he said, "a union of force—a union held together by bayonets; let us be fairly heard; and, if your people decide that they choose to break away from us, we will interpose no obstacle to their peaceful withdrawal from the Union." This doctrine, nakedly stated, exposed those who propounded it to no little misapprehension, and consequent obloquy. Mr. Greeley always thought to the end of his life, that if a fair vote could be taken, it would be found that the South was *not* for secession, and that all the efforts of the disunionists had alienated but a minority of the Southern States or people from the Federal Union. He even insisted that it was *because* of his certainty that a majority of the Southern people were not in favor of secession, that he urged the popular vote; and that the vote, wherever fairly taken, fully confirmed that view. He believed that the traitorous leaders had precipitated action because they feared that delay would be fatal to their schemes. When hostilities had actually commenced, he thought that the Government showed irresolution and delay. The result was "weary months of halting, timid, nerveless, yet costly warfare," while the rebellion might have been stamped out ere the close of 1861. In 1864, Mr. Greeley was engaged in another attempt at accommodation. In consequence of overtures made by Clement C. Clay, of Alabama, James P. Holcombe, of Virginia, and George N. Sanders, a plan of adjustment was submitted by Mr. Greeley to President Lincoln. This proposed the restoration and perpetuity of the Union; the abolition of slavery; amnesty for all political offences; the payment of $100,000,000 five per cent. United States stock to the late slave States, to be apportioned, *pro rata*, according to their slave population; representation in the House on the basis of their total population; and a national convention to ratify the adjustment. Mr. Greeley believed a just peace to be attainable. He thought that even the offer of these terms, though they should be rejected, would be of immense advantage to the national cause, and might even prevent a Northern insurrection. The negotiations, it is a matter of history, utterly failed, but it would be difficult to show that they did any injury to the cause of the Union. In connection with the Richmond negotiation, which was simultaneous,

they showed that "the war must go on until the Confederacy should be recognized as an independent power, or till it should be utterly, finally overthrown," "and the knowledge of this fact," said Mr. Greeley afterwards, "was worth more than a victory to the national cause."

The final victory of the Union arms was clouded by the assassination of President Lincoln. Mr. Greeley summed up his estimate of the character of that good man by saying: "We have had chieftains who would have crushed out the rebellion in six months, and restored the Union as it was, but God gave us the one leader whose control secured not only the downfall of the rebellion, but the eternal overthrow of human slavery under the flag of the great Republic."

In 1864, Mr. Greeley was a Presidential Elector for the State of New York, and a Delegate to the Philadelphia Loyalists' Convention.

The rebellion finally crushed, and the Union restored, so far as operations in the field could restore it, Mr. Greeley's mind was at once turned to projects of real and substantial pacification. The armies of the short lived Confederacy were scattered, and its great chief was a prisoner in the hands of the Federal authorities—an unwelcome embarrassment, since the Government could much better have connived at his escape from the country. He could have been tried for treason; but his conviction was by no means certain, should he be brought to trial. Meanwhile his imprisonment was prolonged with what Mr. Greeley thought to be "aggravations of harsh and needless indignity." He could not be tried summarily by court-martial and shot; if tried by a civil court, he could not possibly be convicted, at any point where he could legally be tried. The provisions of the Federal Constitution were explicit, that "in all criminal prosecutions, the accused should enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed." Mr. Greeley said frankly to the attorney for Davis, that if his name were necessary upon a bail bond, it would not be withheld. When apprised that his name was needed, he went to Richmond, and, with Mr. Gerrit Smith, the eminent Abolitionist, and others, signed the bond in due form. The act has been grossly misrepresented, and used for partisan purposes in the unfairest way. It cost Mr. Greeley fair hopes of political preferment; it almost stopped the sale of his History of the Rebellion; and when he became a candidate for the Presidency with Mr. Gerrit Smith himself among his most active opponents, the suretyship for a criminal whom the Government never tried, and never had intended to try, was constantly and bitterly urged against him. The unfairness of this will now be acknowledged by the most eager partisan of the Administration, then it was considered a sharp and clever electioneering expedient.

In 1867, Mr. Greeley was a Delegate at Large to the New York State Convention for the revision of the Constitution, where he was prompt and efficient in the performance of his official duties.

In 1861 Mr. Greeley's friends presented his name before the Republican Legislative Caucus at Albany for U. S. Senator. There were three Republican candidates before the caucus, viz.: Mr. Greeley, Ira Harris and William M. Evarts. Mr. Greeley started out with a large support, and for several successive ballots gained largely upon his opponents, but was finally defeated in a nomination, which would have been equivalent to an election, by reason of the supporters of Mr. Evarts going over in a body to Mr. Harris, which secured his nomination, and of course his election. During that senatorial campaign Mr. Greeley was at the west delivering lectures, and thence wrote to an intimate friend at Albany saying that he had heard it intimated that some of his supporters at the State capital were inclined to "fight fire with fire." To this he entered his earnest protest, saying that, while he should feel flattered with a seat in the U. S. Senate, if it should be the unbiased wish of the Legislature to send him there, he earnestly hoped that no friend of his would do any act to secure his election the publication of which would cause such friend to blush. Six years later, in 1867, Mr. Greeley's friends were again anxious to send him to the Senate, and before the meeting of the Legislature the almost unanimous expression of the leading Republicans of the State, as well as that of the principal journals of the party, favored his election. But immediately after the close of the civil war he had declared, as the basis for reuniting the republic in the bonds of friendship and brotherhood, in favor of "universal amnesty and impartial suffrage." In this he was, as usual, in advance of his party, though they have since seen the wisdom of his suggestion, and have substantially adopted his plan of pacification. Against the judgment of his friends, but in order that he should not be elected under any possible misapprehension as to his views on the pacification of the South, he reiterated them just before the meeting of the Legislative caucus, in a strong and vigorous article in THE TRIBUNE, over his own signature. This threw him out of line for the Senatorship, as he expected it

would, and so said to his intimate friends, who vainly tried to induce him to suppress the article "till after the election." In 1869, in a forlorn hope, after two or three Republican candidates who had been nominated had declined to run for State Controller, he accepted the position, and though defeated in the contest, as every one expected he would be, he ran ahead of the entire Republican State ticket, seven candidates in all, with the single exception of Gen. Franz Sigel, who received a considerable German vote which was not cast for the other Republican nominees.

In 1870 he ran for Congress in the 6th District, against the Hon. S. S. Cox, and though too ill to make a single speech in the district, he reduced the Democratic majority there from about 2,700, two years before, to about 1,000, and ran 300 ahead of Gen. Woodford, the Republican candidate for Governor in 1870.

The political year of 1872 found the United States in a yet unsatisfactory and disunited condition. The States lately in rebellion were yet abandoned almost entirely to anarchy, with the laws inefficiently enforced, with a great portion of the population uneasy and discontented, with the public treasuries depleted by systematic robbery, and a considerable portion of the inhabitants groaning under what they regarded as no better than despotism. This was of itself, to many honest and patriotic minds, a sufficient reason for opposing the re-election of Gen. Grant; yet there were others almost equally weighty. The Civil Service, by general admission, was not what it should be. There were grave charges of Executive corruption, which were not then and have not yet been satisfactorily explained. There was at least an unpleasant suspicion of nepotism in the distribution of the public patronage, which demanded but did not receive investigation. There was a general desire for an honest Government. It was under these pressing circumstances that the Liberal Convention met at Cincinnati on May 1st. It was attended by a vast delegation from all parts of the Union. Mr. Carl Schurz, who presided, very ably and forcibly stated the reason and aim of the Convention. He alluded to the "jobbery and corruption stimulated to unusual audacity, by the opportunities of a protracted civil war invading the public service of the Government, as almost all movements of the social body"—to "a public opinion most deplorably lenient in its judgment of public and private dishonesty,"—to "a Government indulging in wanton disregard of the laws of the land, and resorting to daring assumptions of unconstitutional power,"—to "the people, apparently at least, acquiescing with reckless levity in transgressions, threatening the very life of our free institutions." He thought the opportunity "grand and full of promise." Judge Matthews, of Ohio, subsequently spoke of the necessity of "emancipating the politics and business of the country from the domination of rings." The platform adopted by the Convention, with the accompanying resolutions, was conceived in a similar spirit. It arraigned the Administration for acting "as if the laws had binding force only for those who are governed, and not for those who govern." It charged the President with "openly using the powers and opportunities of his high office for the promotion of his personal ends,"—with "keeping notoriously unworthy and corrupt men in places of responsibility, to the detriment of the public interest,"—with "using the public service of the Government as a machinery for partisan and personal influence, and interfering with tyrannical arrogance in the political affairs of States and municipalities,"—with "receiving valuable presents, and appointing to lucrative office those who gave them,"—with resorting to arbitrary measures, and failing to appeal "to the better instincts and latent patriotism of the Southern people, by restoring to them those rights, the enjoyment of which is indispensable for a successful administration of their local affairs." The platform was in accordance with these views, calling for local self-government, for a reform of the Civil Service, for a speedy return to specie payments, for a removal of all disabilities imposed on account of the rebellion, and pledging the Liberal party to maintain the Union, emancipation, and enfranchisement, and to oppose reopening of the questions settled by the XIIIth, XIVth, and XVth Amendments. Upon the sixth ballot, after various changes, Mr. Greeley received a clear majority of all the votes cast, and was declared the nominee of the Convention for the Presidency, and B. Gratz Brown was also nominated for the Vice-Presidency. After many demonstrations of the warmest enthusiasm the Convention adjourned.

Mr. Greeley, in accepting the nomination of the Convention, took the ground that "all the political rights and franchises which have been acquired through our late bloody convulsion, must and shall be guaranteed, maintained, enjoyed, respected evermore," and that "all the political rights and franchises which have been lost through that convulsion should and must be promptly restored and re-established, so that there shall be henceforth no proscribed class, and no disfranchised caste within the limits of the Union, whose long-estranged people shall

reunite and fraternize upon the broad basis of Universal Amnesty with Impartial Suffrage." Mr. Greeley also wrote strongly in favor of the maintenance of the equal rights of all citizens, and of the policy of local self-government, as contradistinguished from centralization. Upon other points, Mr. Greeley advocated Civil Service Reform, a reservation of the public lands for actual settlers, the maintenance of the public faith and national credit, a due care for the soldiers and sailors of the Republic; and he concluded by promising, if elected, to be the President "not of a party, but of the whole people." In July following, Mr. Greeley also received the nomination of the Democratic Convention at Baltimore, and he was now fairly before the country as the Presidential candidate of two great parties.

The canvass which followed developed a faculty in Mr. Greeley for which he had hardly received credit, even from his admirers. He spoke constantly, and in all parts of the country; and the test to which he thus voluntarily subjected himself was admitted by almost universal consent, to have been nobly maintained. He discussed all the great questions before the country boldly, and without hesitation or concealment. He was attended and eagerly listened to on such occasions by immense throngs of the people; and he bore the immense strain upon both his physical and intellectual powers without flinching. He had, as a matter of course, upon his nomination, retired from the editorial charge of THE TRIBUNE, but he was still affectionately welcomed by his old readers, with the same cordiality, when he came to speak to them with the living voice.

The result of the canvass is detailed in another part of this publication. Our system of Presidential elections is such that a candidate may receive, as Mr. Greeley did, a large popular vote, and, at the same time, a very small one in the Electoral Colleges. Mr. Greeley did not carry many States, but the results of the Liberal movement were at once felt in fresh promises from the incoming Administration, and in an assurance, at least semi-official, that the errors and mistakes of which the complaint had been so loud, would not be repeated. Mr. Greeley came back cheerfully and philosophically to his old TRIBUNE chair, and girt himself for the old work, which alas! he was not to continue.

The strong physical and mental constitution of the man was already broken by many cares, by enormous labors, and by the loss of a wife to whom he was devotedly attached, and who had been for so many years his helper and his cheerer. For THE TRIBUNE he wrote hardly at all, and at last he was obliged to give up visiting the office regularly. His sleeplessness was followed by inflammation of the brain, and under this he rapidly sank, dying on Friday, Nov. 29. The earthly life which had been so busy, so laborious, and so fruitful, was over.

The obsequies of Mr. Greeley were of a kind rarely accorded to any save great public characters. In the pulpits of New York and of other cities, upon the subsequent Sunday, allusions were made to the event. The remains were taken to the City Hall, where they were visited by an immense concourse of the population. Upon the day of the funeral the streets were thronged by a crowd of respectful spectators, anxious to show their respect for the departed. Among those who attended the funeral were the President and Chief Justice of the United States, several heads of departments, many Representatives and Senators, and State and city officials. The services were conducted by Rev. Dr. Chapin, pastor of the deceased, and by the Rev. Henry Ward Beecher. After these the procession moved to Greenwood, where the remains of Mr. Greeley were deposited.

Such was the life and such the death of Horace Greeley. Our limits have compelled us to epitomize that which might have been, and indeed has already been, extended to volumes. But most of the readers of THE TRIBUNE ALMANAC are already familiar with the career of one whose course they were accustomed to watch with interest, affection and respect. No man was ever more generally respected—no man ever died more generally regretted. He has passed from the busy scenes of earth, in which he was one of the most useful and busy; but as the self-cultivated man of letters, the philanthropist, the reformer, and the unsurpassed journalist, he will be honorably remembered so long as the history of the Republic shall survive.

John A. Dix's maj. for Governor, 53,451; John C. Robinson's maj. for Lieut. Governor, 46,757; Reuben W. Stroud's maj. for Canal Commissioner, 15,681; Lyman Tremain's maj. for Congressman at Large, 37,599; Grant's maj. 53,456; Seymour's maj. in 1868, [illegible]. Total vote for Governor, 838,151; for Lieut. Governor, 841,285; for Canal Commissioner, 84[illegible]5; for Congressman at Large, 830,103; for President, 828,020; for President in 1868, 849,700. Ezra Graves, Adm., was elected State Prison Inspector by a vote of 444,362 against 368,417 for Enos C. Brooks, Liberal. An "Anti-Dram-Shop" ticket, headed by Charles C. Leigh for Governor was in the field and received 177 votes. The O'Conor ticket received 1,454 votes, and the Temperance electoral ticket 201.

NOTE.—The vote above given for President is that of Amasa J. Parker and Stewart L. Woodford, who each received about 50 more votes than the average of the [illegible] electors on their respective tickets. The vote for Woodford, however, is about [illegible] votes less than that of the Grant electors, excluding Fred. Douglas, who ran 1,850 behind the ticket, and Emil Sauer, who ran 150 behind. We have carefully revised the official canvass, in which, as issued from the Secretary of State's office, there were several gross errors. The votes cast in Niagara County for John F. Hubbard, Lib., and John F. Hubbard, *jr.*, are included in our table.

N. Y. by TOWNS.

Electoral Vote for Amasa J. Parker and Stewart L. Woodford.

Governor Parker's maj. in 1871, 5979; Grant's maj. in 1872, 15200; Seymour's maj. in 1868, 2870. Total vote in 1872, 168467; in 1871, 158745; in 1868, 163,132. The O'Conor Electoral ticket received 606 votes.

The vote for President in 1872, above given, is that of Olden, Adm., and McClellan, Dem. The average vote of the Liberal Electors is about 400 less than the above figures, for the reason that in Somerset County there were 388, and in Warren County 242 votes cast for John F. Boppe, instead of John A. Boppe; and in Somerset County, 388, and in Warren Co., 1103 for Sidney A. Bevans, instead of Sidney B. Bevans, both Boppe and Bevans being Electors on the Greeley ticket. The average vote of the Greeley Electors, with the above-mentioned votes thrown out, is 76397, and of the Grant Electors, 91,593; maj. 15196.

David P. Lewis's maj. for Governor, 8497; Grant's maj. 10828; in 1868, 4278. Total vote for Governor, 171239; for President in 1872, 169716; for President in 1868, 148454.

The Legislature is claimed by both parties. There being a number of contested seats in the House, and the Democrats holding the certificates of election, the Administration members seceded and organized a separate body. The Democrats met in the State Capitol and were recognized by the out-going Governor. Afterwards, in accordance with

suggestions from Washington, the Administration members met with the Democrats in the State House, but still preserved their separate organization. No settlement had been reached at the time this ALMANAC went to press.

Besides the Governor, the following State officers, all Administration, were elected: Lt. Governor, Alexander McKinstry, of Mobile; Secretary of State, Patrick Ragland, of Jackson; Auditor, Robert T. Smith, of Randolph; Treasurer, Arthur Hingham, of Talladega; Attorney General, Benjamin Gardner, of Barbour; Superintendent of Public Instruction, Joseph H. Speed, of Perry; Commissioner of Industrial Resources, Thomas Lambert, of Coosa.

Greeley's maj by Warmoth's returns, 6,492, Grant's maj. by Kellogg's returns, 14634; Kellogg's maj. for Governor, by Kellogg's returns, 18811, Graham's maj. for Auditor in 1870, by Warmoth's returns, 24,522; Seymour's maj. for President in 1868, 46962. By Warmoth's returns, the vote for Governor was: McEnery, 65579; Kellogg, 55973; McEnery's maj 19606.

THE LEGISLATURE.—There are two bodies, each claiming to be the Legislature, and basing their pretensions on the reports of the respective returning boards. The Kellogg Legislature, however, has been installed in power by Judge Durell, of the U. S. District Court, aided by U. S. troops.

NOTE.—The above are the pretended returns of a series of the most fraudulent elections ever held in any country. A comparison of the aggregate number of votes cast, with the voting population as returned by the census, will show only a small portion of the frauds, but is conclusive so far as it goes. In the city of New York, containing in 1870, 188276 voters, less than 135000 votes were polled last November. In the county of St. Lawrence, containing 17,612 voters, less than 16,000 were polled—a very high proportion, much higher than we should look for in Louisiana. Yet, in the counties of Assumption Avoyelles, Lafourche, St. John Baptist, Terrebonne and Washington, the pretended vote actually exceeds the number of voters, while the general proportion through the State is only in the ratio of 13 to 16, and in many counties less than 2 to 3. We can only say that such a succession of monstrous and transparent debaucheries of the ballot box affords no indication of the political views of the people of Louisiana.

Silas Woodson's majority for Governor, 35,442; Greeley's majority for President, 32,238; Grant's majority in 1868, 21,232. Total vote for Governor, 277,986; for President in 1872, 270,630; in 1868, 152,488. The O'Conor ticket received 2,429 votes.

NOTE.—The vote for President in 1868 is, as near as possible to obtain it now, the vote cast by the people, of whom many thousands in Missouri were at that time disfranchised. The State authorities rejected the returns from the counties of Dunklin, Jackson, Monroe, Oregon, Platte, Ripley, Shannon and Wayne, together with portions of other counties, bring out the following as the official result: Grant, 83,887; Seymour, 58,905; Grant's maj., 24,982.

The following State and judicial officers (Liberals) were also elected in November, 1872:

Lt.-Gov.	C. P. Johnson	over	J. H. Stover.
Sec. State.	E. F. Weigel	"	C. W. Voerdl.
Treasu'r	H. W. Salmon	"	D. W. Draper.

Elisha Baxter's maj. for Governor, 3566; Grant's maj., 3446; in 1868, 3034. Total vote for Governor, 80000; for President, 79300; in 1868, 41190. There is reason to believe that both in 1868 and 1872 the actual vote of Arkansas was different from that given above. It is alleged that there were gross frauds in 1872, and in 1868 the votes of 14 counties, casting a large Democratic majority, were rejected.

The aggregate vote for other State officers was as follows:

CONGRESS, 1872.

William J. Hynes, Liberal, was elected to Congress from the State at Large, receiving 39933 votes to 39687 for John M. Bradley, Adm.; Hynes's maj. 246. The returns which we have from the Congress districts are not complete, but certificates of election have been given to Asa Hodges, Lib., and Oliver P. Snyder and Thomas M. Gunter, Adm., from the Ist, IId, and IIId Districts respectively.

CONGRESS, 1872.

Two sets of Congressmen were elected, one in August and another in October. At the first election the Democrats in the IId District generally refrained from voting. In the second election, the Republicans took little part. It has not yet been decided which set are entitled to the seats. The following are the names of those elected:

	August.	October.
I.	John J. Davis.	Benjamin Wilson.
II.	*J. Morrison Hugans.*	B. Frank Martin.
III.	Frank Hereford.	Frank Hereford.

Democrats in Roman, Republicans in Italics, Independent Democrat in small capitals.

Since the 1st of January, Gov. Jacob has issued a proclamation declining to interfere in the matter of the contested seats, and the decision is accordingly left to Congress.

Previous to the election of 1804, each elector voted for two candidates for President, and the person receiving the highest number of votes, if a majority of the whole number of electors, was declared to be President; and the person having the next highest number was Vice-President. At the first election there were 69 electors, all of whom voted for Washington, and 34 for John Adams, 35 votes being scattered upon John Jay, R. H. Harrison, J. Rutledge, Geo. Clinton, and others. At this election three States did not vote, viz.: New York (8) had not passed an Electoral Law; Rhode Island (3); and North Carolina (7) had not adopted the Constitution. In 1792, four votes were cast for Thos. Jefferson, and one for Aaron Burr. In 1796, scattering votes were cast for Samuel Adams, Oliver Ellsworth, George Clinton, John Jay, and others. In 1800, there was a tie vote between Thomas Jefferson and Aaron Burr, and the House of Representatives elected Jefferson on the 36th ballot, by 10 States, viz.: New York, New Jersey, Pennsylvania, Maryland, Virginia, North Carolina, Georgia, Tennessee, Kentucky, and Vermont. Mr. Burr was, of course, elected Vice-President.

PARTY PLATFORMS IN 1872.

LIBERAL REPUBLICAN AND DEMOCRATIC PLATFORM.

[Adopted by the Liberal Republican Convention at Cincinnati, in June, and by the Democratic National Convention at Baltimore, in July, 1872.]

First—We recognize the equality of all men before the law, and hold that it is the duty of Government in its dealings with the people to mete out equal and exact justice to all, of whatever nativity, race, color, or persuasion, religious or political.

Second—We pledge ourselves to maintain the union of these States, emancipation, and enfranchisement, and to oppose any reopening of the questions settled by the Thirteenth, Fourteenth, and Fifteenth Amendments to the Constitution.

Third—We demand the immediate and absolute removal of all disabilities imposed on account of the Rebellion, which was finally subdued seven years ago, believing that universal amnesty will result in complete pacification in all sections of the country.

Fourth—Local self-government, with impartial suffrage, will guard the rights of all citizens more securely than any centralized power. The public welfare requires the supremacy of the civil over the military authority, and freedom of persons under the protection of *habeas corpus*. We demand for the individual the largest liberty consistent with public order; for the State, self-government; and for the nation, a return to the methods of peace and the constitutional limitations of power.

Fifth—The Civil Service of the Government has become a mere instrument of partisan tyranny and personal ambition, and an object of selfish greed. It is a scandal and reproach upon free institutions, and breeds a demoralization dangerous to the perpetuity of republican government. We therefore regard such thorough reforms of the Civil Service as one of the most pressing necessities of the hour; that honesty, capacity, and fidelity constitute the only valid claim to public employment; that the offices of the Government cease to be a matter of arbitrary favoritism and patronage, and that public station become again the post of honor. To this end it is imperatively required that no President shall be a candidate for reelection.

Sixth—We demand a system of Federal taxation which shall not unnecessarily interfere with the industry of the people, and which shall provide the means necessary to pay the expenses of the Government economically administered, the pensions, the interest on the public debt, and a moderate reduction annually of the principal thereof; and, recognizing that there are in our midst honest but irreconcilable differences of opinion with regard to the respective systems of Protection and Free Trade, we remit the discussion of the subject to the people in their Congress Districts, and to the decision of the Congress thereon, wholly free of Executive interference or dictation.

Seventh—The public credit must be sacredly maintained, and we denounce repudiation in every form and guise.

Eighth—A speedy return to specie payment is demanded alike by the highest considerations of commercial morality and honest government.

Ninth—We remember with gratitude the heroism and sacrifices of the soldiers and sailors of the Republic, and no act of ours shall ever detract from their justly-earned fame for the full reward of their patriotism.

Tenth—We are opposed to all further grants of lands to railroads or other corporations. The public domain should be held sacred to actual settlers.

Eleventh—We hold that it is the duty of the Government, in its intercourse with foreign nations, to cultivate the friendship of peace, by treating with all on fair and equal terms, regarding it alike dishonorable either to demand what is not right, or to submit to what is wrong.

Twelfth—For the promotion and success of these vital principles, and the support of the candidates nominated by this Convention, we invite and cordially welcome the cooperation of all patriotic citizens, without regard to previous affiliations.

THE ADMINISTRATION PLATFORM.

[Adopted by the National Administration Convention at Philadelphia, June, 1872.]

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country:

First—During eleven years of supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated four millions of slaves, decreed the equal citizenship of all, and established universal suffrage. Exhibiting unparalleled magnanimity, it criminally punished no man for political offenses, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased, with a firm hand, the resultant disorders of a great war, and initiated a wise policy toward the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted; the public lands freely given to actual settlers; immigration protected and encouraged, and a full acknowledgment of the naturalized citizens' rights secured from European powers. A uniform national currency has been provided; repudiation frowned down; the national credit sustained under most extraordinary burdens, and new bonds negotiated at lower rates; the revenues have been carefully collected and honestly applied. Despite the annual large reductions of rates of taxation, the public debt has been reduced during General Grant's presidency at the rate of $100,000,000 a year. A great financial crisis has been avoided,

and peace and plenty prevail throughout the land. Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and the power of the nation kept in high respect throughout the world. This glorious record of the past is the party's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

Second—Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established, and effectually maintained throughout the Union, by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect of citizen by reason of race, creed, color, or previous condition of servitude.

Third—The recent amendments to the national Constitution should be cordially sustained, because they are right, not merely tolerated because they are law, and should be carried out according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

Fourth—The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

Fifth—Any system of the civil service under which the subordinate positions of the government are considered rewards for mere party zeal, is fatally demoralizing; and we, therefore, favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency, and fidelity the essential qualifications for public position, without practically creating a life-tenure of office.

Sixth—We are opposed to further grants of the public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

Seventh—The annual revenues, after paying the current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, be raised by duties upon importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

Eighth—We hold in undying honor the soldiers and sailors whose valor saved the Union; their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people. We favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of service or the cause of such discharge.

Ninth—The doctrine of Great Britain and other European powers concerning allegiance—"Once a subject always a subject"—having at last, through the efforts of the Republican party, been abandoned, and the American idea of the individual's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former government; and we urge the continual and careful encouragement and protection of voluntary immigration.

Tenth—The franking privilege ought to be abolished, and the way prepared for a speedy reduction in the rate of postage.

Eleventh—Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection, and the amplest field for capital, and for labor the creator of capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

Twelfth—We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore they are entitled to the thanks of the nation.

Thirteenth—We denounce repudiation of the public debt in any form or disguise as a national crime. We witness with pride the reduction of the principal of the debt and of the rates of interest upon the balance, and confidently expect that our excellent national currency will be perfected by a speedy resumption of specie payments.

Fourteenth—The Republican party is mindful of its obligations to the loyal women of America, for their noble devotion to the cause of freedom. Their admission to wider fields of usefulness is received with satisfaction, and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

Fifteenth—We heartily approve the action of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

Sixteenth—The Republican party propose to respect the rights reserved by the people to themselves as carefully as the powers delegated by them to the State and to the federal government. It disapproves of the resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

Seventeenth—It is the duty of the general government to adopt such measures as will tend to encourage American commerce and shipbuilding.

Eighteenth—We believe that the modest patriotism, the earnest purpose, the sound judgment, the practical wisdom, the incorruptible integrity and the illustrious services of Ulysses S. Grant have commended him to the heart of the American people, and with him at our head we start to-day upon a new march to victory.

1,500,000 ACRES

of the most FERTILE and eligibly located LANDS, suitable for FARMING and GRAZING, are offered FOR SALE to actual settlers, on the most liberal terms, by the ST. JOSEPH AND DENVER CITY RAILROAD COMPANY, lying along their line of road in the State of Nebraska.

The superior advantages that these lands possess in point of location, lying on the direct highway running East and West between New York and San Francisco, is at a glance comprehended by every one looking to a rapid increase in the value of real estate and farming lands.

The SOIL is DEEP and RICH, and produces the heaviest Grain Crops in the country. The temperature of this section of the United States is particularly favorable for raising Fruits and all kinds of Garden Vegetables to perfection. And as a grazing country it even excels Kansas, not only in point of the luxuriance of its grasses, but from the absence of the fly that troubles cattle—this section has abundance of good water, and is destined to become, before long, the fattening grounds of the large herds in the West. The climate is the most even and salubrious. The most liberal facilities will be extended to settlers on these lands. For further information and pamphlets, address,

HEALTH! BEAUTY!

Strong, Pure, and Rich Blood, Increase of Flesh and Weight, Clear Skin and Beautiful Complexion, secured to all, through

DR. RADWAY'S SARSAPARILLIAN RESOLVENT.

Every drop of the Sarsaparillian Resolvent communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Consumption, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it, for either of these forms of disease, its potent power to cure them. If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood, and this the Sarsaparillian will and does secure, a cure is certain; for, when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing. Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases, but it is the only positive cure for Kidney, Bladder, Urinary, and Womb Diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substance like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back along the Loins.

Tumor of 12 years' growth cured by Radway's Resolvent.

BEVERLY, MASS., July 18, 1869.

DR. RADWAY: I have had Ovarian Tumor in the ovaries and bowels. All the doctors said "*there was no help for it.*" I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it, but *had no faith* in it, because I had suffered for TWELVE YEARS. I took *six bottles of the Resolvent*, one box of Radway's Pills, and used two bottles of your READY RELIEF; and there is not a sign of a tumor to be *seen or felt*, and I feel BETTER, SMARTER, and happier than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish if you choose. * * * * HANNAH P. KNAPP.

THE BEST TONIC.

Caswell, Hazard & Co.'s FERRO-PHOSPHORATED ELIXIR of CALISAYA is a delicious cordial, made of the Pyrophosphate of Iron and Calisaya Bark; it is the most valuable tonic now in use for Dyspepsia, Nervous Affections, Wakefulness, Debility, Depression of Spirits, &c., &c. The pale, the nervous, and the debilitated should not fail to take it; particularly females suffering from those complaints incident to the sex. Physicians now give it the preference to all similar preparations. If taken during exposure to malaria it strengthens the system to resist this poison, and prevents chill and fever, bilious fever, and other intermittent attacks.

HAZARD & CASWELL'S
PURE COD LIVER OIL.

This Oil is the Purest and Sweetest in market.

It can be retained by the stomach when all others fail.

Prof. Parker of New York, says: "I have tried almost every other manufacturer's oil, and give yours the decided preference."

Patients, after trying the other oils and finding them of such nauseous and offensive character it was impossible for the stomach to retain them, have tried ours, and find it sweet and pleasant, to agree with the stomach perfectly, and soon come to like it. Physicians have pronounced it the best and most reliable remedy in use for Coughs, Consumption, Rheumatism, Bronchitis, and all Pulmonary Complaints. They also have declared it superior to any of the *Brown* oils.

Manufactured only by Caswell, Hazard & Co., New York.

Caswell, Hazard & Co.'s JUNIPER TAR SOAP.

The best and most convenient remedy for Chapped Hands and Face, Rough Skin, Pimples, and all Cutaneous Affections. It makes the skin soft and smooth; prevents the skin from chapping if used during cold weather; is easily applied, avoiding the trouble of the greasy compounds now in use.

Caswell, Hazard & Co.'s CAMPHOR ICE with GLYCERINE

Is a most excellent article, and gives universal satisfaction.

Caswell, Hazard & Co.'s DIARRHŒA and CHOLERA REMEDY

(Known as VELPEAU'S REMEDY) has been used extensively for years with perfect success; it has become an absolute necessity in thousands of families. None should be without it, as one or two doses will cure the most obstinate attacks.

Caswell, Hazard & Co.'s INODOROUS BENZINE

Will be found a superior article for removing Paint, Grease Spots, &c., &c., leaving no stain, with little or no odor.

Caswell, Hazard & Co.'s No. 6 (or TOILET) COLOGNE

Is acknowledged by connoisseurs as superior to the German, and much cheaper.

Caswell, Hazard, & Co.'s CHLORATE OF POTASH LOZENGES,

For Coughs, Colds, Sore Throat, &c.; they are more pleasant and efficacious than the disagreeable troches now in use.

Our Preparations are sold by all Druggists.

CASWELL, HAZARD & CO.,

ALLCOCK'S POROUS PLASTERS.

This article is equal as a remedy to the Spanish fly blister, yet makes no sore, and never affects the kidneys; is convenient for all ages and conditions, usualy only producing a "blush" on the skin, and more certainly curative than liniments or blisters, and without prostration and pain of the latter.

And this is true even in Croup, Quinsy, Pleurisy, Lung and Throat Affections. But the utility of this sanitary invention has been warmly welcomed. They are largely sold in every part of the world, and it is believed that not less than five hundred thousand persons are well and attending to the duties of life, free from pain, who have an Allcock's Porous Plaster somewhere about them, and who, but for the said plaster, would be prostrate upon a bed of agony. *Besides a peculiar piny pleasant odor, halo or atmosphere exhales from them by the warmth of the body, imperceptible to the eye, but which envelopes the body in a cloud of thin vapor, through which contagion cannot penetrate. In fact, Allcock's Plasters supply an atmosphere like that of a balsam or pine woods, and no doubt attracts ozone. When contagious or infectious diseases are about, they should be worn on the chest or back as preventatives.*

The Allcock Porous Plaster soothes pain, reanimates torpid limbs, seem in many cases to revive the powers of life. The great demand proves them to be used as a universal remedy. They are convenient of application, and safe for all, being incapable of producing any injurious effects.

Dr. Valentine Mott, Dr. Johnson, of Hartford, and Dr. Myers, of Savannah, have spoken of them in the highest terms. The great Mott said: "They were all that could be hoped for in a Plaster—simple, cleanly and adhesive, perfect as artificial supporters of the muscles, and for pains, because of their mild counter-irritant qualities, usually at once giving ease." Local weakness of the back, breast, and side, always benefited, thus curing lumbago in a few hours, sometimes in a few minutes.

In serous, heart, and chest affections their use causes an absorption or evaporation of water, by which dropsy of the heart and hydrothorax have undoubtedly been cured.

Letter from J. R. Decatur, Esq.

197 WATER STREET, NEW YORK, AUGUST 7th, 1872.

THOMAS ALLCOCK & CO.; For many years I have suffered from lame and weak back, it being so weak I could not raise a ten-pound weight from the floor. It was painful for me to stand five minutes without leaning on something for support, and it was necessary for me to be very careful in walking, for the least misstep or jar caused me intense pain. The Allcock's Porous Plaster was often recommended, but my predjudices were so strong that it was a long time before I concluded to try them. At length, suffering so much, I was prevailed upon to give one plaster a trial. Wonderful to relate, it gave me immediate relief, and now I have, as it were, a new back; have no difficulty in standing, walking or lifting. I send you this evidence for the benefit of my fellow men. I feel that I would like evey person to know of the value of Allcock's Porous Plasters for weak backs. I have recommended to many of my friends, who have sincerely thanked me for the good they have done them.

Yours, respectfully, J. R. DECATUR.

NEW YORK, APRIL 5TH, 1872.

T. ALLCOCK & CO., GENTLEMEN.—Your plaster, which ought to be called "the magic plaster" has wrought such a cure on my lame back, that duty compels me to speak to you and the public through you of their efficiency. A few weeks ago, I commenced to have a light pain across the small of the back, which gradually increased—until it became almost intolerable—sitting, standing or lying made no difference—the pain finally becoming *continual* and very painful. A friend, who had formerly recommended your invaluable plaster, (which I tried two years ago with great success.) mentioned the fact, which induced me to try it again, and I am happy to say, three days only have elapsed, and every vestige of the pain has ceased. Publish this if you wish, for I am anxious to help applaud a thing that I have received so much ease from using. Hoping for your continued prosperity, I remain very gratefully yours, etc.,

Carbolic Salve.

The success that has attended the introduction of this Remedy has never been equaled in any single instance before in the history of medicine. Its virtues are recognized alike by rich and poor, and men of distinguished public reputation do not hesitate to give the widest publicity to their praise of so excellent an article as CARBOLIC SALVE.

Subjoined we give extracts from the letters of a few out of the many received from men whose statements and opinions are entitled to the greatest consideration, to say the least.

From D. R. LOCKE, (Petroleum V. Nasby,) of the Toledo Blade.

Mr. JOHN F. HENRY:—I had on the forefinger of my right hand one of those "pleasant pets" a "run'round." The finger became inflamed to a degree unbearable, and was swollen to twice its natural size. A friend dressed it with Carbolic Salve, and in *twenty minutes* the pain had so much diminished as to give me a fair night's rest. D. R. LOCKE.

From Col. H. S. OLCOTT, Special Commissioner of the War Department, and formerly of the Tribune.

I have used Carbolic Salve myself, and have seen it used by members of my family and among my acquaintances, and in every case it was efficacious in effecting a cure.

Yours truly, H. S. OLCOTT.

From GEORGE B. LINCOLN, late President of the Board of Health.

Your Carbolic Salve, a package of which you were kind enough to hand me, proves an *excellent article*, and I thank you for it. Yours, GEORGE B. LINCOLN.

BEWARE OF SPURIOUS IMITATIONS!

The genuine Henry's Carbolic Salve bears the fac-simile signature of JOHN F. HENRY on each and every Label, to counterfeit which is a PENAL OFFENSE.

GREEN'S
Oxygenated Bitters.

This well-known and standard remedy still maintains its well deserved reputation. As a purely medicinal preparation for INDIGESTION, DYSPEPSIA, BAD APPETITE and all the various disorders of the stomach it has no equal. It contains *no Alcohol*, and cannot, therefore, in any way injure the stomach or digestive organs. The benefit derived from its use is not the result of a mere temporary and injurious stimulation of the organs of digestion, but it effects a *radical cure* by restoring the normal functions of the stomach to a condition of health, and by acting in concert with nature to dispel disease, rather than by stimulating and goading that organ to accomplish more than nature intended it to do, especially when it is in a disordered state.

By this false system of stimulation more injury than good is done by the majority of Alcoholic Bitters offered to the public, a fact that should be borne in mind by every intelligent person.

BRANDRETH'S PILLS.

The Laws of Life are written upon the face of Nature. The Tempest, Whirlwinds and Thunder Storms bring health from the Solitudes of God. The Tides are the daily agitators and purifiers of the mighty world of Waters.

What these Providential means are as purifiers of nature, BRANDRETH'S PILLS are to Man.

Because their use produces an activity in the circulation which occasions the blood to throw off what is hurtful. And their good effects are not counterbalanced by any inconvenience. Being composed entirely of herbs, they do not expose those who use them to any danger; their effects are as certain as they are salutary. They are daily and safely administered in infancy, youth, manhood, old age, and to woman in the most critical and delicate circumstances; they do not disturb or shock the animal functions, but restore their order and re-establish their health.

Those who are sick and use a few boxes hardly know themselves afterward. From being dull, they are lively; from being sallow their complexions are clear; from having no appetite they long for the dinner hour. And after their use, all the functions of nature go on with regularity. If the bowels were costive, they are so no more; if the sleep was disturbed, it is now sound and refreshing; if there were pains or local affections, they are now gone.

MATTER OF DISEASE.

The matter which is always present when people are sick, is a fluid, like white of an egg, but more limpid. This fluid flows on the part where pain is felt, and spreads and insinuates itself wherever a weak spot or low vitality exists in the body. Sometimes this matter of disease becomes vapor, and subtilely affects the nerves and brain. This hostile fluid to man's existence is never absent; it was implanted with life, but in the healthy it is divided so as not to be felt. But when, from fatigue, bad diet, conduct, or coming in contact with bad smells or contagious vapors, this matter of disease becomes aroused to activity and concentration, it settles, like dew on the weakest part of the body, producing at once pain and disease.

Now, there may be many medicines which will reduce this *hostile fluid*, but there is one which never fails in cases of Dizziness, Pains in the Head, Rheumatism and Costiveness, Colds; in fact, Sickness is reduced, and finally vanquished, by Brandreth's Pills, whose use infallibly purifies the blood, and brings the matter of disease within manageable limits.

In fact, Brandreth's Pills remove impure and undigested accumulations from the stomach and bowels, cleanse the liver and the spleen, and generally purify the whole interior.

Every time one is purged by this remedy he has less poison in his system, and relatively more life. Persons of spare habit and delicate organization gain flesh and vigor while using them.

Their fame is extending; even the whole of the Town Officers, where they are prepared, and the Board of Health, have publicly indorsed the curative qualities of Brandreth's Pills. Such a mark of distinguished consideration has seldom been bestowed upon any medicine.

THE DAILY TRIBUNE.

Now, as heretofore, THE TRIBUNE strives to be first of all and pre-eminently a *news* paper.

Our Intention is to make THE TRIBUNE what Horace Greeley would have made it if God had spared him—a frank and fearless newspaper, devoted to the best interests of the whole country; spending its energies and resources freely in the collection of news; keeping its readers informed of the course of events, the currents of opinion at home and abroad, the progress of science and the useful arts; speaking its mind freely on all questions of public concern; detesting neutrality in politics as the refuge of the weak-minded and the timid, but keeping its independence as the best title to honor and usefulness.

THE TRIBUNE of the future shall be the same TRIBUNE which fought so bravely for human freedom, for equal rights, for the cause of the poor, for the advancement of the humble, for the education of the ignorant which made itself the laboring man's guide, the scholar's companion, the welcome visitor at the fireside. Sympathizing with all liberal and benevolent enterprises, pushing forward whatever advances the culture and prosperity of our country, tending naturally to the party which has been identified most closely with the progress and glory of the Union, but at war with abuses wherever they may be found, it shall be, what we formally style it at the head of the editorial columns, "THE TRIBUNE, Founded by HORACE GREELEY."

DAILY TRIBUNE, $10 a year by Mail.

THE SEMI-WEEKLY TRIBUNE.

As The Newspaper for the Household, THE SEMI-WEEKLY TRIBUNE is unsurpassed. It is the best family journal published in the country. Issued every TUESDAY and FRIDAY. It contains nearly all the important News, Correspondence, Reviews, and Editorials of THE DAILY, including everything on the subject of Agriculture, Home Interests, and much interesting and valuable matter, for which there is not room in THE WEEKLY TRIBUNE. THE SEMI-WEEKLY TRIBUNE also gives, in the course of a year, THREE OR FOUR of the

Best and Latest Popular Novels,

by living authors. The cost of these alone in book form, would be from six to eight dollars. Its price has been lately reduced, so that Clubs can now secure it at little more than the cost, to single subscribers, of THE WEEKLY. Nowhere else can so much current intelligence and permanent literary matter be had at so cheap a rate as in THE SEMI-WEEKLY TRIBUNE.

THE WEEKLY TRIBUNE

IS THE BEST AND THE CHEAPEST PAPER FOR

FARMERS AND FAMILIES.

THE WEEKLY TRIBUNE, now more than thirty years old, devotes a large share of its columns to Agriculture, employing the ablest and most successful cultivators to set forth what *they* know of farming in brief, clear essays, elucidating and commending Agriculture as the first and most important of progressive arts based on natural Science.

No other periodical has done more to imbue our farmers with the truth, that the best instructed cultivator of the earth is far superior in efficiency to the strongest or even the most diligent.

We mean to make THE TRIBUNE an authority in every department of Productive Industry. Invention and Machinery are rapidly transforming the processes whereby Labor ministers to the physical wants of mankind.

"Home Interests" are discussed each week by a lady specially qualified to instruct and charm her own sex, and the younger portion of the other. No column is more eagerly sought or perused with greater average profit than hers. The News of the Day is condensed, while given sufficiently in detail to satisfy the wants of the average reader.

As to its political principles, THE TRIBUNE is of course, hereafter as heretofore, the champion of Equal Rights, irrespective of Race, Nativity or Color. Independent of all political parties, THE TRIBUNE endeavors to treat them all with judicial fairness. It labors to purify the administration of Government, National, State and Municipal, and whenever those in authority take the lead in this work, it will therein give them its cordial support, but it can never be the servitor of any political party; nor will it surrender or even waive its right to criticise and condemn what is wrong, and commend what is right in the action of any parties or of any public men. To whatever may elucidate the general discussion or action on the topics of the day THE TRIBUNE gives amplest space and most impartial record; its readers have the right to an honest statement of the facts; and this they always get.

In short, THE WEEKLY TRIBUNE commends itself to Millions by ministering to their intellectual wants more fully than they are met by any other journal, while its regular reports of the Cattle, Country Produce, and other Markets, will of themselves save the farmer who regularly notes them, far more than his journal's price.

For the family circle of the educated farmer or artisan, THE WEEKLY TRIBUNE has no superior, as is proved by the hundreds of thousands who, having read it from childhood, still cherish and enjoy it in the down hill of life.

We respectfully urge those who know its worth to commend THE WEEKLY TRIBUNE to their friends and neighbors, and we proffer it to clubs at prices which barely pay the cost of paper and press-work.

Messrs. C. L. RICE & CO., Chicago, Illinois:

Dear Sirs.—Yours of yesterday asking for my experience with **H. W. JOHNS' PATENT ASBESTOS ROOFING** duly received. In answer, would say, I have used Mr. Johns' Roofing and Coating extensively for **TEN YEARS** past, and with great satisfaction. I have applied it to more than three hundred roofs in Rockford, Illinois, and adjacent country. I have roofs in Rockford that have been on **EIGHT YEARS without Repairs**—they are sound and good, and by simply recoating will last as much longer. I have seen and tested many kinds of Composition Roofing during the past ten years. I have seen nothing that comes up to "Johns' Patent Asbestos."

Truly yours,

Better Than Ever.

THE NEW YORK LEDGER

FOR THE NEW YEAR, 1873.

THE GREAT FAMILY PAPER.

Instructive and entertaining as the LEDGER has been in the past, we hope and intend to make it still more instructive and entertaining in the future. Our experience is greater than heretofore, and our ambition to make the LEDGER the best paper of the kind published in the world, is undiminished.

It is the aim of the LEDGER to cultivate a taste for reading in the rising generation, and at the same time, by the character of its contents, to contribute constantly to their moral and intellectual improvement and growth.

An epicure might as well undertake to write down what he would have for dinner every day for twelve months to come, as for us to attempt, at this time, a catalogue of all the good things that will be spread before the readers of the LEDGER in 1873. Our old subscribers will bear us witness that all the promises we have ever made have always been more than fulfilled. We never let slip an opportunity to obtain any really good and desirable thing. Expense and trouble never stand in our way. And in this respect, as it has been in the past, so it will be in the future.

The LEDGER is particularly devoted to the interests and welfare of the young. A vast number of questions about lovers' quarrels, propositions of marriage, plans for housekeeping, and the best means of brightening the future of youthful married couples, are answered in its columns.

One great and guiding principle with us is to inculcate the sentiments of self-respect and self-reliance, and thus to strengthen and render more manly the characters which are just assuming form, to endure through all their days.

The LEDGER is always full of life. Nobody ever complains that even a single number is dull.

It has the largest number of great and distinguished writers.

It contains the purest, sweetest and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

Many of the most distinguished clergymen of the country write for it.

All our favorite old writers will continue to write for the LEDGER; and we are always on the keen look-out for any new developments of *real* rising genius.

OUR TERMS FOR 1873—NOW IS THE TIME TO SUBSCRIBE.

Single copies, $3 per annum; four copies, $10, which is $2.50 a copy; eight copies, $20. The party who sends us $20 for a club of eight copies, (all sent at one time,) will be entitled to a copy *free*. Postmasters and others who get up clubs, in their respective towns, can afterwards add single copies at $2.50. No subscriptions taken for a less period than one year. Canada subscribers must send twenty cents in addition to the subscription, to pay the American postage. When a draft or money-order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. The postage on the LEDGER to all parts of the country is only twenty cents a year, or five cents a quarter, payable at the office where the paper is delivered.
